Bob was a staunch friend in medical school-- partly because we shared similar views! In the summer of '66 we journeyed to Montreal in my TR3 2 seat sports car. As we had nearly run out of cash ----Bob had heard that if you went to a police station and the cells were empty you might be able to sleep there. Sure enough in Sault St Marie we were accommodated! Bob introduced me chess in Montreal as well as

Bob was my friend and at one moment in my life after

his illness my mentor who changed my life and helped me develop values I still live by. I have never stopped feeling grateful to him. My condolences to his sisters, wife, children, friends.

I met Bob 43 year's ago on a CPR train heading to Ottawa and Montreal. After his illness he returned to McGill University. His determination to continue with his career in Medicine was remarkable and he never faltered. A true inspiration and a loving soul. I will always remember his smile, friendship and dedication to his patients and career in Medicine.

I am so sad to hear this news. Bob lived just three doors down the street from me, and Lynne and I hung out together as kids, so I spent a lot of time in the Forrest household. And I was living in Montreal when he became ill, so went through some of that terrible time with Verna. That Bob was able to recover and return to a medical practice through sheer will and perseverance was pretty impressive. He

I knew Bob for about 12 years. He was great to chat with and had amazing recall particular medical issues. RIP old friend.

*Memories of Bob: Brunskill Reunion, Saskatoon*

Bob was a key part of my youth in Saskatoon. He was my best friend from K-10, living across Temperance Street. We went everywhere together: Prince Albert, Brunskill & City Park school and the playground/rink between our homes. Bob was outstanding academically - I know as we'd compare report cards walking home each grading period - he was stellar, an incentive for me. I credit his "right hook to endless practice together in our backyard BB court playing HORSE to perfection, and City...
